Professional Summary

I am a passionate, persistent, and self-driven individual, with experience in software development and product design. As a technology enthusiast, currently enrolled in a 3-year full-time Computer Programmer Analyst course at George Brown College focused on Data Structures and Algorithms, Agile methodologies, Machine Learning, Artificial Intelligence, and the likes. I am looking to be part of a creative team, focused on solving complex real-world problems in simple and compelling ways, where I can bring my passion for learning, share ideas, and propose strategies.

Technical Knowledge

Programming: Swift, C#, Java, Python, SQL, Git

Web: HTML, CSS, JavaScript, Bootstrap, Node, React, MongoDB

Applications: Adobe Creative Suite: Illustrator, Photoshop, Premier Pro, Sketch, Marvel, Microsoft Office: Excel, Word, Power Point, Outlook

Operating System: MAC OS, Windows, LINUX, UNIX

Mobile Technologies: iOS: Data Persistence: UserDefaults, Realm, Core Data, SQLite, Auto Layout, Swift UI, MVC Design Pattern, JSON Parsing, Core Location, AFNetworking, Firebase and CocoaPods

Education

Computer Programmer Analyst Advanced Diploma

Sept 2019 – Apr 2022

George Brown College | Toronto, ON

Key Courses:

- Data Structures and Algorithms
- Mobile Application Development
- Agile Software Development
- Application Development using Java
- Full Stack Development
- Cyber Security
- Open Source Development
- Machine Learning with Python
- System Analysis, Design And Testing
- Artificial Intelligence with Python

Bachelor's Degree in Philosophy

Sept 2011 – Nov 2016

University of Lagos | Lagos, NG

Professional Experience

Software Developer Trainee

Apr 2017 – May 2018

Bludel Technologies | Lagos, NG

- Work in a team-oriented environment for all aspects of product development (design, implementation, test, and maintenance support)
- Contribute to group meetings and provide a status update on development tasks for progress reporting
- Work with development engineers to test product features and functions
- Work with senior engineers to review the problem report solution and implement the solution
- Support development engineers in reviewing product documentation
- Troubleshoot and analyze problem reports to help determine the root cause of the reported issue
- Perform debug and performance analysis of code and systems

Tech Team Event Volunteer

Sep 2019 - Present

Google Developer Group | Toronto, ON

- Assist in resolving technical issues during lab events.
- Helped in debugging and resolving issues with the Google Cloud Platform
- Use Python programming knowledge to educate and assist participants during the lab event.
- Educated participants on all aspects of labs in areas of Language and Image Processing.
- Set up power cables and inspect curtain and screen control to enable event run smoothly
- Ushered to participants their seats.
- Count and record the number of participants.
- Assisted in getting refreshments for participants.

Certificates

iOS 13 & Swift: The Complete iOS App Development Bootcamp

Udemy | Online - May 2020

The Complete 2020 Web Development Bootcamp

Udemy | Online

Intro to ML Image Processing:

Google Cloud Platform | Qwiklabs - January 2020

Intro to ML Language Processing:

Google Cloud Platform | Qwiklabs - October 2019

BigQuery for Data Warehousing:

Google Cloud Platform | Qwiklabs - February 2020

Software Engineering: SQL Fundamentals of Query, Object-Oriented Programming, Java

New Horizon Learning Center | Lagos, NG - February 2018

Mobile Application Development: Android

New Horizon Learning Center | Lagos, NG - March 2018

Diploma In Web Design: XHTML, HTML, CSS, Dreamweaver, Photoshop, JavaScript

New Horizon Learning Center | Lagos, NG - October 2013

Advanced Diploma In Multimedia: Illustrator, Premier Pro, In-design, After Effect,

New Horizon Learning Center | Lagos, NG - April 2016
